

TORMEK®**Tormek T-8 Original**

The Original T-8 is the most versatile sharpening system Tormek offers. The kit comes with a 5-year (8-years if you register with Tormek) warranty, free shipping (48 states), and nearly everything (water not included) you need to sharpen your chisels & plane irons. Starting with the hefty 10"x2" Aluminum Oxide SG-250 grindstone, you have the option of grinding at 220X or 1000X using the SP-650 stone grader. If 1000 is sharp enough for you, you can stop there. But if you really want a sharp edge, take your blade over to the included leather strop wheel, lay down a bead of the included 3 micron (Approx. 3000 grit) PA-70 honing compound, & bring your blade up to a bright, shiny & sharp mirror finish that would make the Magic Mirror in Snow White blush!

The included SE-77 Square Edge Jig is great for chisels and plane irons but the Original T-8 is more than just a two edge sharpening system; it is a sharpening platform that can be extended through a wide variety of jigs & grindstones. Whether you're a woodturner, sous chef sharpener, pocket knife pundit, or axe grinder, the T-8 is your gateway to a world of sharpening options you may have never considered before. Just don't forget to come back to wood-working from time to time.

186174	Tormek T-8	\$915.00
<i>Includes SE-77 Square Edge Jig, TT50 Truing Tool, SP650 Stone Grader, WM200 Anglemaster, Honing Compound, Leather Strop Oil, Handbook & DVD</i>

We offer a full selection of replacement sharpening wheels. Call or check our website.

**Tormek Black T-8 50th Anniversary Special Edition Sharpening System**

Hello darkness my old friend... I've come to talk to you again. Ten years ago, Tormek released the 40th anniversary graphite T-7. Outside of the graphite color & the RB-180 rotating base, there wasn't much different from a standard T-7 of the time. This year is very different. Not only is the body of the T-8 a color spectrum swallowing black, it also eschews the standard grindstone & leather honing wheel in favor of the DF-250 (600X) fine diamond wheel & the CW-220 (Approx. 2000X) composite honing wheel. To give you maximum task flexibility, no jigs are included so you can decide how you want to extend the use of this machine.

No jigs? Who is this for then?! Tormek fanatics, Supergrind or T-4/T-7 upgraders, & sharpening simplifiers. What's a sharpening simplifier? A sharpening simplifier is someone that doesn't want to spend a lot of time managing a variety of stones, diamond plates, assorted liquids & oils and deal with their clean up & storage. Conversations about whether to grind to 14000X or stop at 8000X, water or oil stones, figure 8 or back & forth, and so on just aren't interesting. With the T-8 50th Anniversary Edition it couldn't be easier to initialize and keep your chisels & plane irons sharp, especially if you have harder (RC-60+) blades. Simply take the chisel out of the box & put it in the SE-77 Square Edge Jig (not included). Next, flatten the back on the side of the diamond wheel, then sharpen the edge on the top of the wheel. Finally, take it to the composite wheel to hone and you're done.

Creature comforts include a limited edition all black MH-380 dust cover, the SQ-90 edge square, anti-corrosion concentrate, & the WM-200 Anglemaster. The standard warranty is the usual 5-years, but if you register it within 90-days of purchase, Tormek will extend it to a total of 50-years! This is truly a lifetime sharpening system.

WHILE SUPPLIES LAST

186360	Tormek T-8 Black 50th Anniversary Special Edition Sharpening System	\$995.00
<i>T-8 Black includes 600X Diamond Wheel & Composite Strop. No jigs are included. All Tormek jigs are compatible with the T-8 Black.</i>
