

SIX-STICK COMB-BACK  
from  
'THE STICK CHAIR BOOK'

- Notes on these patterns*
- All patterns are drawn full-size.
  - Centerlines and sightlines are drawn as dotted lines.
  - The centerpoint of each mortise is marked with an X. The circle around the X represents the size of the drill bit used to make the mortise – not the shape of the rim of the mortise (which will be slightly oval).
  - Complete illustrations and instructions necessary to build this chair are in "The Stick Chair Book" (Lost Art Press).
  - Drawings are by Josh Cook based on designs by Christopher Schwarz.
  - The plans are copyright 2021 by Lost Art Press. The patterns may be reproduced freely for personal use, but not for resale.
